Full Stack Developer with a background in Communication, Art, and Design, resulting in a strong focus on Frontend. Proficient in agile methodologies, Git, data structures, algorithms, and CSS frameworks. I have experience in developing both Frontend and Backend using technologies such as React, Redux, Bootstrap, Tailwind, Node.js, Express, and SQL, among others in the industry. I am a curious, self-taught, and detail-oriented individual. Working on both individual and team projects has helped me strengthen my teamwork and autonomy skills. I enjoy collaborating with others and learning new things. Open to relocation. Native language: Spanish. English level: C2.

TECHNOLOGIES

Frontend: HTML, CSS, Javascript, Typescript, React, React Native, Expo, Redux, Redux toolkit, Next.js, Bootstrap, Tailwind, Sass, UI frameworks (Material UI, Chakra UI, Daisy UI), Styled components, Emotion, Framer Motion, internationalization with i18next.

Backend: Node.js, Express, ORM (Prisma, Sequelize).

Databases: relational (MySQL, PostgreSQL) and non-relational (MongoDB).
