Ana Sol Maldonado
Full Stack Developer

Tucuman - Argentina | Phone (+54) 9 3812029735
sol.maldonado.0209@gmail.com
Portfolio - LinkedIn - GitHub

Full Stack Developer specialized in Frontend. Proficient in agile methodologies, Git, data structures, algorithms, and CSS frameworks. Experience in both Frontend and Backend development using React, Redux, Tailwind, Node.js, Express, and SQL, among other technologies. Curious, self-taught, and detail-oriented, always aiming for the best results. Working on individual and team projects has helped me enhance my teamwork and autonomy skills. I enjoy collaborating with others and learning new things. Open to relocation. Native language: Spanish. English proficiency level: C2.

TECHNOLOGIES

Frontend: HTML, CSS, Javascript, Typescript, React, React Native, Expo, Redux, Redux toolkit, Next.js, Bootstrap, Tailwind, Sass, UI frameworks (Material UI, Chakra UI), Styled components, web accessibility, basic knowledge of UX/UI.
Backend: Node.js, Express, GraphQL, ORM (Prisma, Sequelize).
Databases: relational (MySQL, PostgreSQL) and non-relational (MongoDB).
Testing: Jest, Testing Library.
Tools: Git, Figma, Npm, SOLID principles, Postman, Slack, familiarity with Photoshop and GIMP.
Agile methodologies: Scrum.

EXPERIENCE

React Native Developer - Previnca San Lorenzo   oct. 2023 - present
Professional Experience.
- Developed a mobile app that facilitates the creation of digital medical records. It allows doctors to log in and fill out the required patient data.
- Developed the app using Expo, React native, React hook form and Redux toolkit for global state management. The data is stored in Firebase and Odoo.
- Currently providing maintenance for the application, website, and mailing service.

Full Stack Web Developer - iLatinMedia   feb. - mar. 2023
Professional experience.
- Developed a landing page and a multi-step registration form based on a design in Figma.
- Developed the app using React, React Hook Form, and Tailwind for the frontend. Backend developed in Node.js with Express. MySQL database with Sequelize as ORM.
  Demo

Front End Web Developer - Henry Bootcamp   oct. - nov. 2022
Academic experience.
- Designed and developed an e-commerce platform for a hotel chain. It includes authentication, email notifications, payment gateway, search functionality, filtering, sorting, creation, modification, and deletion.

- Developed the app using React, Redux, and Bootstrap for the frontend. Backend built with Node.js and Express. PostgreSQL database with Sequelize as ORM. Authentication and notifications implemented with Firebase. Payment gateway integrated with Stripe.
  Demo - Frontend Repository - Backend Repository
